	RH5000	The Roy-L-Heat Calf Warmer is an Incubator built for saving newborn calves and livestock from Hypothermia in cold weather. The thermostat control heater maintains 100 degree temperature and quickly drys off and brings the body temp. up on newborns. This is the preferred animal warmer by vets and ranchers.	749.00

Find your closest dealer online at www.smucker.net or call 800-333-4503

SAVE YOUR NEWBORN CALVES
STOP HYPOTHERMIA WITH Roy-L-Heat ANIMAL WARMER

Fight cold weather with the most economical, and best designed calf warmer on the market

Pays for itself by saving just a couple calves!

Cold Weather I.C.U. for Calves

www.smucker.net

SMUCKER MANUFACTURING, INC.

Roy-L-Heat ANIMAL WARMER

Thermometer
"Attic" Vent
Head Boot
Thermostat controlled heater
110 Volt Heater
Floor Grate
Hot Air Circulation

Hot air circulates around the calf to raise the body temperature and dry out the calf. The head boot allows the calf to breathe fresh air

Hear what Ranchers are saying about the Roy-L-Heat Calf Warmer

"We purchased one of these calf warmers three years ago. I researched all of the ones available and found the features of the Roy-L-Heat best met our needs. We were calving first calf heifers in the snow, ice and bitter winds of SW Virginia and were staying up all night trying to warm calves, often three or four at a time. The first night we used this warmer it paid for itself. The calves (2) were born in wind chills of 10 degrees but were warmed and hungry as quickly as we could thaw colostrum for them. The next morning the Mamas were ready to feed the hungry little fellas and we saved 9 months of time and investment."

Rancher – Crawfish Valley, VA

"This Roy-L-Heat Calf warmer is wonderful. We have two on our ranch and they can save animals. I recommend putting them out in the calving pens and hooking them up to an electrical outlet. Then when a calf is in need of thermal care you can immediately go to work on him by putting the animal in the hutch. I have also found this beneficial to use for a dog box. The thermostatic controlled heater will have your dog barking praises. This is a very rugged and durable product. It comes with a thermometer on top that allows you to monitor and control the temperature inside."   D. Roche – Garland, UT

"This is the best thing since sliced bread. I calve in January and February. I've always had a heated room to get calves in, but this is a superior method. Getting the air flowing around the calves is a life saver. I used it a dozen or more times in the first week. If you calve when it's cold and wet, this is a MUST! I'd recommend it to anyone."

Kanel Cattle Co. – Dawson, NE

"My husband has worked on a lot of ranches and has seen a lot of bad hotboxes, but now we have our own place and he is so impressed with your calf warmer. It's perfect because it has the right amount of heat and air circulation. So many of those alleged calf warmers become too hot and wet and cause further health problems – or are completely ineffective and not hot at all. It saved a BUNCH of calves for us last winter when it was sub-zero for days on end and you had to be right there if you were going to save the calf. Even cow's calves ended up in there. You could put a completely frozen calf you thought was a goner in there, come back a few hours later and Junior is perky and looking around for food. It delighted us every time. We love our calves, and it sure feels good to be able to help them along thanks to the Roy L Heat!

Rebecca Colnar Mott - Custer, MT

DIGITAL WIRELESS SYSTEMS

PHOTO	Part #	Description	Included	MSRP
	VWCAM-WL	This is our digital wireless camera and receiver package. This long range wireless camera has an IP68 rating so it's ready for harsh conditions. This camera has 1/3 Sony CMOS sensor and 800 TVL resolution. This package is compatable with all of our monitors, but NOT with our MACH2 kits.	• One IP68 Wireless Heavy Duty Camera • Wireless Receiver	**279.00**
	VWIC500-WL **VWIC500-WLRV** **(Includes Furrion Power Adapter & Mounting Plate)**	This is our digital wireless 5" camera kit. This system combines our standard 5" monitor with our digital wireless camera system. Our digital wireless cameras can be adapted to any existing Visionworks monitor. Our digital wireless cameras have 800 TVL resolution and have an IP68 durability rating. The monitor can be powered with our cigarette lighter adapter and the camera will need access to a power source to be hardwired, and this system can have only one camera input.	• One 5" LCD Monitor • One IP68 Wireless Heavy Duty Camera w/ magnet • Wireless Receiver • One Camera Input Harness (VWHR500M) • One 12V "Cigarette Lighter" Power Adapter • One Suction Cup Monitor Mount • One 3M Adhesive Monitor Mount	**369.00**
	VWIC503-WL	This is our wireless 5" heavy duty camera kit. This system combines our heavy duty 5" monitor with our digital wireless camera system. Our digital wireless cameras can be adapted to any existing Visionworks monitor. That means you can have both wireless and wired cameras running on the same monitor if the monitor has enough camera inputs. Our digital wireless cameras have 800 TVL resolution and have an IP68 durability rating. The monitor can be powered with our cigarette lighter adapter and the camera will need access to a power source to be hardwired, and this system can have up to 3 camera inputs.	• One 5" Heavy Duty LCD Monitor • One IP68 Wireless Heavy Duty Camera w/ magnet • Wireless Receiver • Three Camera Input Harness (VWHR5M) • One 12V "Cigarette Lighter" Power Adapter • One U-Bracket Monitor Mount • One Remote	**439.00**
	VWIC700-WL **VWIC700-WLRV** **(Includes Furrion Power Adapter & Mounting Plate)**	This is our wireless 7" standard camera kit. This system combines our 7" monitor with our digital wireless camera system. Our digital wireless cameras can be adapted to any existing Visionworks monitor. That means you can have both wireless and wired cameras running on the same monitor if the monitor has enough camera inputs. Our digital wireless cameras have 800 TVL resolution and have an IP68 durability rating. The monitor can be powered with our cigarette lighter adapter and the camera will need access to a power source to be hardwired, and this system can have up to two camera inputs.	• One 7" LCD Monitor • One IP68 Wireless Heavy Duty Camera w/ magnet • Wireless Receiver • Two Camera Input Harness (VWHR7M) • One 12V "Cigarette Lighter" Power Adapter • U-Bracket Monitor Mount • One Remote	**439.00**
	VWIC104-WL **VWIC104-WLRV** **(Includes Furrion Power Adapter & Mounting Plate)**	This is our wireless 10" standard camera kit. This system combines our 10" monitor with our digital wireless camera system. Our digital wireless cameras can be adapted to any existing Visionworks monitor. That means you can have both wireless and wired cameras running on the same monitor if the monitor has enough camera inputs. Our digital wireless cameras have 800 TVL resolution and have an IP68 durability rating. The monitor can be powered with our cigarette lighter adapter and the camera will need access to a power source to be hardwired, and this system can have up to four camera inputs. The 10" monitor has the ability to monitor multiple cameras at the same time. Operators can choose to view any number of cameras with the touch of a button. All of our 10" kits come with a remote that allows the user to switch their camera view and manage their monitor.	• One 10" LCD Monitor • One IP68 Wireless Heavy Duty Cameras w/ magnet • Wireless Receiver • Four Camera Input Harness (VWHR104M) • One 12V "Cigarette Lighter" Power Adapter • U-Bracket Monitor Mount • One Remote	**779.00**

MACH 2 IN DASH INTEGRATION

PHOTO	Part #	Description	Included	MSRP
	VWMACH2-C07 **VWMACH2-C14** **VWMACH2-C16** **VWMACH2-D11** **VWMACH2F150-15** **VWMACH2-FSD-11** **VWMACH2FSD-17** **(See harness kits below for model specific years)**	This wireless system allows the user to use Visionworks high quality cameras with your existing tailgate camera and in-dash monitor. Basically, the user can use a remote, inside their cab, to switch from their manufacture tailgate camera to a Visionworks camera at the back of their trailer or preferred location for road travel and back up safety. This system is extremely convenient for users who don't want to manually switch between two cameras and keep both their tailgate camera and RV/Trailer camera on one monitor. Our digital wireless transmitters can transmit an interference free signal up to 400 ft. with a clear line of sight. The cameras are equipped with 800 TVL resolution and an IP68 rating, which sets our cameras apart in the industry. This unique to the industry package is the perfect way to monitor two blind spots on your RV/Trailer.	• One IP68 Wireless Heavy Duty Cameras w/ magnet • Wireless Receiver • Four Camera Input Interface Box • Booster Antenna • Furrion Mounting Bracket • One Remote • Model Specific Harness (Choose from list below)	**649.00**
	VWCAM-WL3	This is our digital wireless camera and receiver package for our MACH2 kits. Add this to upgrade your existing MACH2 system to a two, three, or four camera system. This long range wireless camera has an IP68 rating so it's ready for harsh conditions. This camera has 1/3 Sony CMOS sensor and 800 TVL resolution. This package is compatable with our MACH2 systems (It does not work with our monitors).	• One IP68 Wireless Heavy Duty Camera • Wireless Receiver	**299.00**
	VWMACH2	This is our standard interface box and digital wireless camera for your In-Dash monitor in your truck. This could be purchased as a replacement part, but usually it's purchased as a base MACH 2 system that can be mixed and matched with our model specific cables listed below.	• One IP68 Wireless Heavy Duty Cameras w/ magnet • Wireless Receiver • Four Camera Input Interface Box • Booster Antenna • Furrion Mounting Bracket • One Remote • Model Specific Harness (Choose from list below)	**530.00**
	VWM2HK-C07	This is the model specific MACH2 harness for your 2007-2013 Chevy 1500-3500 truck. This harness, paired with our MACH2 package, allows you to view up to four cameras on your in-dash monitor. This is a replacement part for our MACH2 kits and is essential for operating our MACH 2 system with our interface box. Purchase this only as a replacement part since the camera and interface box is NOT included, or to mix and match our MACH 2 kits.	• One Harness for 2007-2013 Chevy 1500-3500 Trucks • Pair with our MACH2 package	**119.00**
	VWM2HK-C14	This is the model specific MACH2 harness for your 2014-2015 Chevy 1500-3500 truck. This harness, paired with our MACH2 package, allows you to view up to four cameras on your in-dash monitor. This is a replacement part for our MACH2 kits and is essential for operating our MACH 2 system with our interface box. Purchase this only as a replacement part since the camera and interface box is NOT included, or to mix and match our MACH 2 kits.	• One Harness for 2014-2015 Chevy 1500-3500 Trucks • Pair with our MACH2 package	**119.00**
	VWM2HK-C16	This is the model specific MACH2 harness for your 2016-2019 Chevy 1500-3500 truck. This harness, paired with our MACH2 package, allows you to view up to four cameras on your in-dash monitor. This is a replacement part for our MACH2 kits and is essential for operating our MACH 2 system with our interface box. Purchase this only as a replacement part since the camera and interface box is NOT included, or to mix and match our MACH 2 kits.	• One Harness for 2016-2019 Chevy 1500-3500 Trucks • Pair with our MACH2 package	**119.00**
	VWM2HK-D11	This is the model specific MACH2 harness for your 2011-2019 Dodge Ram 1500-3500 truck. This harness, paired with our MACH2 package, allows you to view up to four cameras on your in-dash monitor. This is a replacement part for our MACH2 kits and is essential for operating our MACH 2 system with our interface box. Purchase this only as a replacement part since the camera and interface box is NOT included, or to mix and match our MACH 2 kits.	• One Harness for 2011-2019 Dodge Ram 1500-3500 Trucks • Pair with our MACH2 package	**119.00**
	VWM2HK-F150-15	This is the model specific MACH2 harness for your 2015-2019 Ford F150 truck.This harness, paired with our MACH2 package, allows you to view up to four cameras on your in-dash monitor. This is a replacement part for our MACH2 kits and is essential for operating our MACH 2 system with our interface box. Purchase this only as a replacement part since the camera and interface box is NOT included, or to mix and match our MACH 2 kits.	• One Harness for 2015-2019 Ford F150 Trucks • Pair with our MACH2 package	**119.00**

Photo	Part #	Description	Included	MSRP
(Ford)	VWM2HK-FSD-11	This is the model specific MACH2 harness for your 2011-2016 Ford Super Duty F250-F-550 truck. This harness, paired with our MACH2 package, allows you to view up to four cameras on your in-dash monitor. This is a replacement part for our MACH2 kits and is essential for operating our MACH 2 system with our interface box. Purchase this only as a replacement part since the camera and interface box is NOT included, or to mix and match our MACH 2 kits.	• One Harness for 2011-2016 Ford Super Duty F250-F550 Trucks • Pair with our MACH2 package	**119.00**
(Ford)	VWM2HK-FSD-17	This is the model specific MACH2 harness for your 2017-2019 Ford Super Duty Truck when it DOES Not have a 360 degree factory installed camera (See VWCAMBN-360WL. This harness, paired with our MACH2 package, allows you to view up to four cameras on your in-dash monitor. This is a replacement part for our MACH2 kits and is essential for operating our MACH 2 system with our interface box. Purchase this only as a replacement part since the camera and interface box is NOT included, or to mix and match our MACH 2 kits.	• One Harness for 2017-2019 Ford Super Duty F250-F550 Trucks (without a factory installed 360 camera) • Pair with our MACH2 package	**119.00**

SINGLE CAMERA IN-DASH INTEGRATION
Special Adaptors for In Dash integration. Simply plug into the back of the truck and then either attach a VWCAM4, VWLCAM4, or VWCAM-WL3 (sold seperately)

PHOTO	Part #	Description	Included	MSRP
(Chevrolet)	VWIDI-C07	This is the model specific harness to run our camera on your 2007-2013 Chevy 1500-3500 trucks. However, this harness allows you to view only 1 camera in your in-dash monitor. You must purchase the kits listed above for multi-camera viewing.	• One Single Camera Input Harness for 2007-2013 Chevy 1500-3500 Trucks	**60.00**
(Chevrolet)	VWIDI-C14	This is the model specific harness to run our camera on your 2014-2015 Chevy 1500-3500 trucks. However, this harness allows you to view only 1 camera in your in-dash monitor. Extra Cameras and Accessories

PHOTO	Part #	Description	Included	MSRP
	VWLCAM4	This is our wired license plate camera. This camera has a sleek low profile design and is easy to install. Our license plate camera has 420 TVL resolution and an IP68 durability rating. This camera also has LED lights for color nightvision (4 pin connector).	• One Wired License Plate Camera • One 30 ft. Cable	99.00
	VWCAM4	Our standard heavy duty wired camera is our #1 selling camera. This camera has 700 TVL resolution and an IP68 durability rating. This camera has a 60# magnet option included for mounting (4 pin connector).	• One Standard Heavy Duty Wired Camera • One 30 ft. Cable • One 60# Magnet	119.00
	VWCAM4-SV	Our side view wired camera has the same specs as our standard heavy duty wired camera, however, it does not come with a magnet. The side view camera allows users to adjust the lens infinitely to give you the perfect view for unique applications and for the side of a vehicle.	• One Side View Wired Camera • One 30 ft. Cable	119.00
	VWCAM-VPRO	The V-Pro is the most durable wired camera on the market. This camera has 700 TVL resolution and an IP69 durability rating. The camera is nitrogen filled to prevent condensation in the camera. This camera has a 60# magnet option included for mounting (4 pin connector).	• One V-Pro Camera • One 30 ft. Cable	329.00
	VWCAM-WL	This is our digital wireless camera and receiver package. This wireless camera can be paired with any Visionworks monitor. This long range wireless camera has an IP68 rating so it's ready for harsh conditions. The digital wireless camera has 1/3 Sony CMOS sensor and 800 TVL resolution. This package is NOT compatable with our MACH2 systems.	• One IP68 Wireless Heavy Duty Camera • Wireless Receiver	279.00
	VWDWTR	This wireless transmitter and receiver allows you to make any of our wired camera into digital wireless cameras. Our system transmits video signal up to 400 ft. with a good line of sight interference free.	• One Wireless Transmitter • One Wireless Receiver	219.00
	VWMDVR1	This is our mobile realtime DVR. Now you can make any Visionworks camera system into a video recorder. This small, easy to install and use, mobile DVR simply goes "in-line." With an SD card (up to 128 GB), you can loop at least 128 hours of video on the card. This is great for applications like vehicle security, monitoring foaling and calving, and other applications. This is better than a dash cam, because it records your blind spots. Lower your liability and catch the criminals red handed!	• One Mobil DVR Recorder • One Cigarrette Lighter Adapter • One Remote	189.00
	VWQ4	Our quad processor allows users to plug 4 cameras or wireless receivers into the quad and only one output to the monitor. With the wired remote you can choose to view all four or each camera on the screen.	• One Quad Processor	289.00
	VW15PV4	15 ft. (5 meter) extension cable 4-pin o-ring sealed round connectors.	• One 15 ft. (4-pin) Extension Cable	28.00
	VW30PV4	30 ft. (10 meter) extension cable 4-pin o-ring sealed round connectors.	• One 30 ft. (4-pin) Extension Cable	33.00

	Model	Description	Includes	Price
	VW65PV4	65 ft. (20 meter) extension cable 4-pin o-ring sealed round connectors.	• One 65 ft. (4-pin) Extension Cable	**44.00**
	VW13PCON	This harness is for your 4 camera system (each camera has an 8 foot lead). The quick hitch connector simply makes connecting an implement to your tractor convenient.	• One VW13 PCON Harness	**69.00**
	VWMOBAT	This is a rechargeable battery pack for wireless applications where you do not have a 12v power source. This will provide the camera with around 7-8 hours of battery life before it needs to be recharged. Comes with an ACDC charger, 12v charger and magnet.	• One Rechargeable Battery Pack • One ACDC Charger • One 60# Magnet	**149.00**
	VW24PV4	This "Y" adaptor (when used with a VWDWTR and a wired camera) allows you to watch the wired camera in your monitor and transmit the same video signal to another monitor up to 400 ft away.	• One "Y" Adapter	**89.00**
	VWPLUG	This cable supplies 12v from a standard trailer flat 4 connector to our wireless cameras (VWCAM-WL or VWCAM-WL3). This plug makes installation easy and you can use the magnet that comes with the camera to make you camera mount portable.	• One VWPLUG	**22.50**
	VWRCA4P	This cable allows users to plug a VW Camera into any monitor with an RCA input like an TV, DVR or Edge. The monitor side of the adaptor is a male RCA and the camera side of the adaptor is 4-pin male.	• One VWRCA4P	**29.00**
	VW4PRCA	This cable allows users to plug a DVD into your VW monitor. The monitor side of the adaptor is 4-pin female and the camera side of the adaptor is an RCA female.	• One VW4PRCA	**29.00**
	VWNAVPLUS	This adaptor can be used for Kenworth and Peterbilt Trucks to view a VW camera on a Navplus in-dash monitor.	• One VWNAVPLUS	**33.00**
	VWTLADP	Our truck lite adapter allows users to attach our wireless cameras to the back of your semi or trailer and use the existing 12v power at the running lights. Most semi trailers use this type of 12v adaptor, but you can always call us to check your model.	• One VWRLADP	**39.00**
	VWACDC	This adaptor converts 110v to 12v and works on wireless and wired systems. These are free for dealers that want to display Visionworks on their parts counter.	• One VWACDC	**12.00**
	VW12VCA	This is our cigarette lighter adaptor that is used to power your monitor.	• One VW12VCA	**15.00**
	VWRVPROPK	Since many RV trailers and 5th wheels come with a Furrion plate and 12v power source. This metal bracket makes installation easy and gives the VWCAM-WL a fit and finished look. As a bonus, you also receive a long range booster antenna with this pack if you prefer to have the antenna on the top of the trailer instead of on the camera (this is included with all Mach 2 kits but it is optional with the monitor kits).	• One Furrion Mounting Bracket • One Wireless Booster Antenna	**30.00**

	Product	Description	Includes	Price
	VWODA14	This long range booster antenna mounted on the top of an RV provides for a clearer wireless signal and can be particularly helpful in trailers lomger than 30' or if you want to use your camera system while driving, where the law allows, and not just backing up (this is included with all Mach 2 kits but it is optional with the monitor kits).	• One Omni-Directional Booster Antenna	29.00
	VWSSBKT	This is our stainless steel powder coated black bracket and sunvisor for the VWCAM4 camera. This bracket is great for fertilizer and sprayer applications	• One Stainless Steel Camera Bracket	9.00
	VWMCUP	This cup holder has a 65# magnet and can give you a cup holder for our 5" and 7" monitors. You can put it anywhere you have something metal to stick it to and it can even hold your coffee.	• One Magnet Cup holder	12.00
	VWCUPHM	This popular cup holder mount inserts into your cup holder and expands for a solid hold and gives you a conveient, out of the way, place to mount a 5" or 7" Visionworks monitor. No more monitors in your windshield and it doubles as a great cell phone holder.	• One ajustable cup holder mount for our 5" and 7" monitors.	19.99
	VWPVPM	This is our heavy duty metal mounting bracket with a double knuckle and infinite adjustment ability. The bracket works with 7", 10" and T-10 monitors.	• One Heavy Duty Metal Mounting Bracket	29.99
	VWSCB-01	This is our suction cup monitor mount. The mount works with 7" monitors.	• One Suction Cup Monitor Mount For 7" Monitors	19.99
	VWSCB-02	This is another suction cup monitor mount. This mount works with 5" and older 4" monitors.	• One Suction Cup Monitor Mount For 5" & 4" Monitors	12.00
	VW7MB	This is our old style sticky monitor mount for 7" monitor systems.	• One Sticky Monitor Mount For 7" Monitors	13.50
	VWHR4M	This is our wiring harness for all 4" and 5" monitors before June 2019. This harness has two camera inputs (**IMPORTANT:** Connection to the monitor has **6 pins**).	• One Old Style 4" & 5" Monitor Harness • Two Camera Inputs	19.00
	VWHR500M	This is our wiring harness for 5" monitors after June 2019. This harness has two camera inputs (**IMPORTANT**: Connection to the monitor has **8 pins**).	• One New Style 5" Monitor Harness • Two Camera Inputs	19.00
	VWHR5M	This is our wiring harness for our 503 monitors. This harness has three camera inputs	• One 5" Heavy Duty Monitor Harness • Three Camera Inputs	27.00
Old style New style	VWHR7M	This is our wiring Harness for our 7" monitors. This harness has two camera inputs. (**IMPORTANT:** if you are replacing on an older monitor…it is important to tell us if it has a fuse box or not)	• One 7" Monitor Harness • Two Camera Inputs	39.00

	Part #	Description		MSRP
	VWHR104M	This is our wiring harness for our 10" monitors. This harness has four camera inputs.	• One 10" Monitor Harness • Four Camera Inputs	55.00
	VW5M	This is our 5" LCD monitor replacement package. Traditionally, we market this monitor as a single viewing display. However, there are 2 video and 2 audio inputs, so it is possible to have two cameras plugged in with a single camera viewing display. For more information on this option, please contact your nearest dealer or send us a message on our website.	• One 5" LCD Monitor • One Camera Input Harness (VWHR500M) • One 12V "Cigarette Lighter" Power Adapter • One Suction Cup Monitor Mount • One 3M Adhesive Monitor Mount	129.00
	VW5M-3	This is our 5" heavy duty LCD monitor replacement package. It has a single viewing display with the ability to toggle between your camera inputs. This monitor has been designed for heavy duty applications.	• One 5" Heavy Duty LCD Monitor • Three Camera Input Harness (VWHR5M) • One 12V "Cigarette Lighter" Power Adapter • One U-Bracket Monitor Mount • One Remote	199.00
	VW700M	This is our 7" LCD monitor replacement package. Our 7" monitors have 2 video and 2 audio inputs, so it's possible to have two cameras plugged in with a single camera viewing display.	• One 7" LCD Monitor • Two Camera Input Harness (VWHR7M) • One 12V "Cigarette Lighter" Power Adapter • U-Bracket Monitor Mount • One Remote	179.00
	VW7MWP	This is our 7" LCD weatherproof monitor replacement package. Our weatherproof monitor has an IP 69 rating, which means it's pressure washer tested. This monitor has 2 video and 2 audio inputs, so it's possible to have two cameras plugged in with a single camera viewing display.	• One 7" Weatherproof LCD Monitor • Two Camera Input Harness (VWHR7M) • One 12V "Cigarette Lighter" Power Adapter • U-Bracket Monitor Mount	409.00
	VW104M	This is our 10" LCD monitor replacement package. This monitor has 4 video and 4 audio inputs. It has a 2/3/4 camera viewing display or the the ability to toggle between your camera inputs with the remote included. This monitor also has the ability to mirror what you are seeing behind you.	• One 10" LCD Monitor • Four Camera Input Harness (VWHR104M) • One 12V "Cigarette Lighter" Power Adapter • U-Bracket Monitor Mount • One Remote	469.00

GPS Monitor Camera/Cable Bundles
