WEED WIPERS
and Organic

Weed Slayer a **100% organic**, broad spectrum, **non-selective translocating herbicide** made from Eugenol, which is an essential oil of cloves, molasses, and water. This natural and unique product can be used to control your grass and weeds with the assistance of Agro Gold WS, a biological amendment. The use of this product will not incur toxicity in the soil, therefore you can replant your crop quickly. Results can usually be seen within a week but may take 10-14 days. Weed Slayer and Agro Gold are utilized not only by organic growers, but conventional growers as well. Agro Gold WS is WSDA organic listed. Weed Slayer is organic certified, recognized by CDFA, and FIFRA 25(b) exempt. When using the product, you will be killing not only the part of the weed that you can see, but further, the root ball of the weed. It is not a burn down method, but actually kills the weed from the inside out.

Wipe Out Weeds with Hand Held Drift Free Wipers

You Can Spray this Non Selective Systemic Herbicide

All Farmers: GMO, Non GMO, and even Organic Growers can control taller growing ROUND UP RESISTANT WEEDS in your crops, using Sponge Wipers

All Cases come with an equal amount of Part A (Weed Slayer) and Part B (Agro Gold WS)
